Benefit payable:

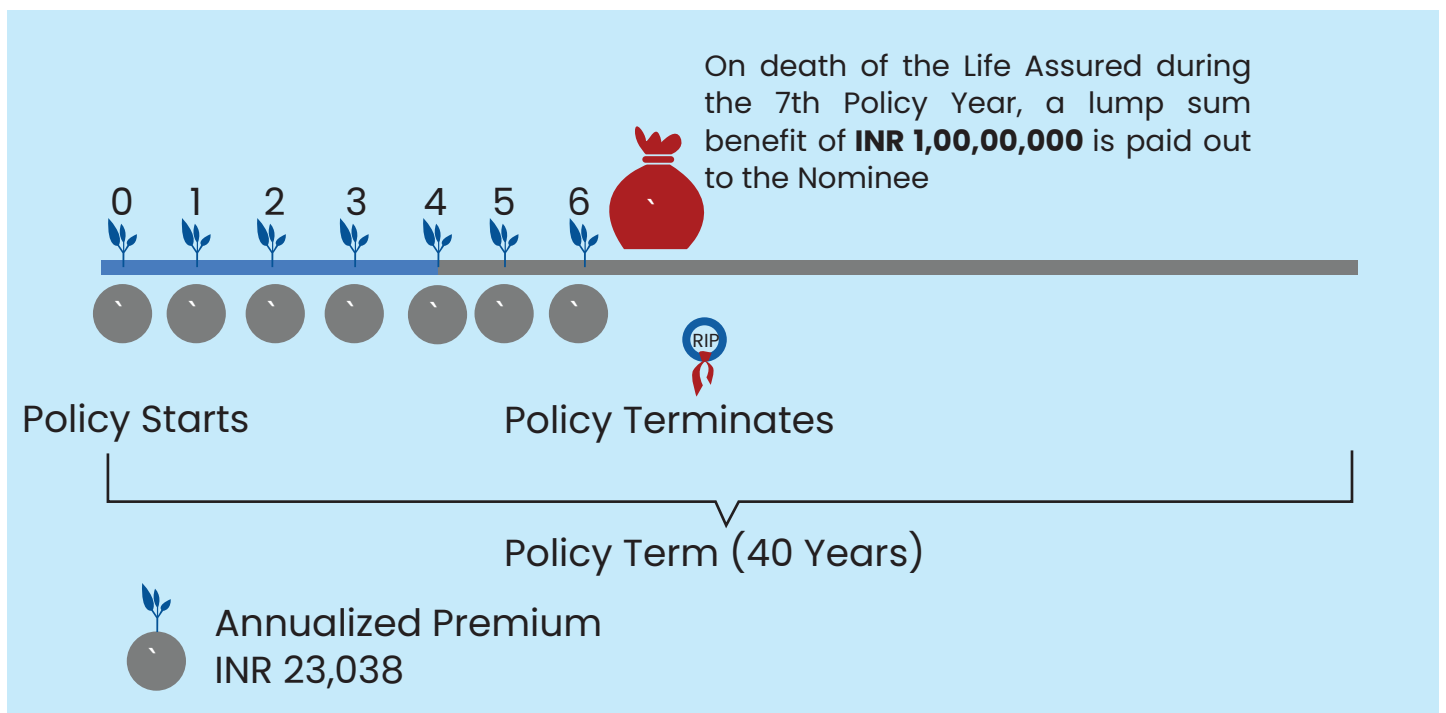

Under this option, the life assured is covered for death benefit during the policy term, which can be accelerated in the case of diagnosis of terminal illness. This is subject to the conditions listed below under "Terminal Illness benefit."

The policy must be in force on the date of death, with all premiums fully paid.

Example: Mr. Anil, a 35 years old gentleman, buys the HDFC Life Click 2 Protect Ultimate for a policy term of 40 years, regular pay, and avails a level cover of INR 1,00,00,000 by paying a premium of INR 23,038 annually (excluding taxes).

Mr. Anil passes away in the 7th policy year. His nominee will receive a lump sum benefit of INR 1,00,00,000.

Total Premiums Paid: INR 1, 61,266

Death Benefit:

“Death Benefit” is payable as a lump sum if life assured dies during the policy term. It is the higher of:

- Sum Assured on Death
- 105% of Total Premiums Paid

Sum Assured on Death for Single Pay (SP) is the highest of:

- 125% of Single Premium
- Sum Assured on Maturity
- Basic Sum Assured

Sum Assured on Death for Other than Single Pay (Limited Pay and Regular Pay) is the highest of:

- 10 times of the Annualized Premium
- Sum Assured on Maturity
- Basic Sum Assured

Where,

- a) Annualized Premium is the premium amount payable in a year chosen by the policyholder, excluding taxes, rider premiums, underwriting extra premiums and loadings for modal premiums, if any.
- b) Total Premiums Paid are the total of all the premiums received, excluding any extra premium, any rider premium and taxes. Where additional options have been selected, Total Premiums Paid includes premium paid for base option as well as the premium paid for additional options selected.
- c) Sum Assured on Death is the absolute amount of benefit which is guaranteed to become payable on death of the life assured in accordance with the terms and conditions of the policy or an absolute amount of benefit which is available to meet the health cover.
- d) Basic Sum Assured is the amount of sum assured chosen by the policyholder.
- e) Sum Assured on Maturity is the amount which is guaranteed to become payable on maturity of the policy, in accordance with the terms and conditions of the policy.

Terminal Illness Benefit:

Sum Assured on Death, up to a maximum of Rs. 2 Cr. will be accelerated in case of diagnosis of terminal illness during the policy term as mentioned below. The Terminal Illness Benefit is subject to Waiting Period condition mentioned in Terms and conditions and is not applicable to a life assured who is above 80 years of age.

Upon payment of Terminal Illness benefit:

- a) If Death Benefit at the time of claim is equal to Terminal Illness benefit, the policy will terminate. Or,
- b) If Death Benefit at the time of claim is greater than Terminal Illness benefit, the policy will continue for the balance death benefit.

Please note that acceleration of death benefit is not an additional benefit; it only facilitates an earlier payment of death benefit on prior diagnosis of terminal illness.

A life assured shall be regarded as terminally ill only if that life assured is diagnosed as suffering from a condition which, in the opinion of two independent medical practitioners' specializing in treatment of such illness, is highly likely to lead to death within 6 months. The insured must not be receiving any form of treatment other than palliative medication for symptomatic relief. The terminal illness must

be diagnosed and confirmed by medical practitioners registered with the Indian Medical Association and approved by the Company. The Company reserves the right for independent assessment.

Maturity Benefit:

On survival until Maturity, Sum Assured on Maturity (if applicable) will be payable, which will be equal to 100 % of the Total Premiums Paid, if Return of Premium option is selected, Nil otherwise.

Additional benefits available under the Product:

1) Return of Premium (ROP) Option

If this option is chosen, policyholder will have to pay an additional premium over and above that payable for the base plan and he/she will receive a return of 100% of the Total Premiums paid as lump sum, upon survival till maturity.

This additional option can be chosen only at policy inception and will be available only where:

- All policy terms between 10 and 40 years for Single, Regular and 5 Pay.
- All policy terms between 15 and 40 years for 6, 7, 8, 10 and 12 Pay.
- Policy Term is between 20 and 40 years for Premium Paying Term – 15 years.
- Policy Term is between 25 and 40 years for Premium Paying Term – 20 years.
- Policy Term is between 30 and 40 years for Premium Paying Term – 25 years.

To avail this option, additional premium shall be payable. Once chosen, the policyholder doesn't have the option to opt out of this benefit.

2) Death benefit as Instalment Option

If this option is selected, the nominee will receive full or part of the death benefit in instalments.

The conditions for choosing this option:

- This option can be chosen by the policyholder at policy inception or by the nominee at the time of claim.
- This option can be opted for full or part of death claim proceeds payable under the policy.
- The instalment can be taken over a chosen period of 5 to 15 years

The instalment shall be paid in advance based on the frequency chosen by the nominee or the policyholder, which can be either yearly, half-yearly, quarterly or monthly. The instalment amount shall be calculated such that the present value of the instalments, using a given interest rate, shall equal the amount of death benefit chosen to be taken as instalments under the policy. This amount shall be a level amount and once chosen by the nominee shall remain fixed over the instalment period.

The interest rate used to compute the instalment amount shall be equal to the annualized yield on 10 year G-Sec (over last 6 months & rounded down to nearest 25bps) less 25 basis points. The interest rate shall be reviewed half-yearly and any change in the interest rate shall be effective from 25th February and 25th August each year. The interest rate shall be revised every time there is a change, as per the above formula. In case of a revision in interest rate, the same shall apply until next revision. The source of 10-year benchmark G-sec yield shall be RBI Negotiated Dealing System-Order Matching segment (NDS-OM).

At any time during the instalment payment phase, the nominee can choose to terminate the instalment payment in exchange for a lump-sum, in which case, the lump-sum payable shall be

equal to the discounted value of all the future instalments due. The interest rate used to calculate the discounted value will be that as applicable on date of termination, using the above mentioned formula.

No additional premium is payable for this option.

3) Option to alter premium frequency

The policyholder has the option to alter the premium frequency during the premium payment term.

4) Option to change Premium Payment Term from Regular Pay to Limited Pay

Under this option, the policyholder can choose to convert the outstanding regular premiums into any limited premiums period available under the product.

Such alterations shall be in accordance with the BAUP and the premium rates under such circumstances shall be charged as filed under the product.

Non Payment of Premiums

Grace Period is the time provided after the premium due date during which the policy is considered to be in-force with the risk cover. This plan has a grace period of 30 days for yearly, half yearly and quarterly frequencies from the premium due date. The grace period for monthly frequency is 15 days from the premium due date.

Should a valid claim arise under the policy during the grace period, but before the payment of due premium, we shall still honor the claim. In such cases, the due and unpaid premium for the policy year will be deducted from any benefit payable.

Paid-Up

A policy will acquire a paid-up value only:

- Where Return of Premium is selected with Limited Pay/Regular Pay, and
- When premiums are paid for at least 1 full year and after completion of first policy year

In all other cases, the policy lapses on premium discontinuance without any paid-up value.

If a policy has acquired paid-up value and stops paying premiums:

(i) Death benefit shall be the highest of:

- $\text{Sum Assured on Death} \times (\text{Total Premiums Paid} \div \text{Total Premiums Payable})$
- 105% of Total Premiums Paid

(ii) Maturity Benefit (where applicable) shall be calculated as:

$\text{Sum Assured on Maturity} \times (\text{Total Premiums Paid} \div \text{Total Premiums Payable})$

(iii) Surrender benefit shall be calculated as shown below.

Surrender / Unexpired Risk Premium Value

Where Return of Premium Option has been selected

Guaranteed Surrender Value (GSV) gets acquired immediately upon payment of premium in case of SP Single Pay and upon payment of premiums for at least 2 years in case of Limited Pay/Regular

Pay.

The Company may pay a surrender value higher than the GSV in the form of a Special Surrender Value (SSV).

SSV shall become payable after completion of first policy year provided one full year premium has been received for Limited/Regular Pay and immediately on the receipt of single premium for Single Pay

Surrender Value will be the higher of Guaranteed Surrender Value (GSV) and Special Surrender Value (SSV), Where,

$$GSV = GSV \text{ Factor} \% \times \text{Total Premiums Paid}$$

SSV shall be calculated as the expected present value of:

- i) Paid-up guaranteed future benefits on death, survival/maturity and
- ii) accrued / vested benefits, duly allowing for survival benefits already paid, if any

The discount rate used to calculate the expected present value shall be equal to the yield on 10 Year G-Sec plus 50 basis points.

Currently, the interest rate used for calculating the expected present value is 7.75% p.a.

The discount rates shall be reviewed at least once annually and in case of any significant movement in the yields. The revised discount rates shall apply to all policies including the policies already sold.

Where Return of Premium Option has not been selected

Policy cancellation value (i.e. Unexpired Risk Premium value) gets acquired immediately upon payment of premium in case of Single Pay and upon payment of premiums for at least 1 full year and after completion of first policy year in case of Limited Pay. In all other cases, the policy lapses on premium discontinuance without any value.

Policy cancellation value (if acquired) shall be payable:

- Upon death of the life assured during revival period, or
- At the end of the revival period if the policy is not revived

The amount payable will be as below:

$$PCV \text{ Factor} \times \text{Total Premiums Paid}^1 \times \text{Unexpired Policy Term}^2 \div \text{Original Policy Term}$$

Where, PCV Factor is as follows:

Policy Year	PCV Factor
During PPT or if all due premiums have not been paid	30%
Post PPT if all due premiums have been paid	50%

¹ If the policyholder has exercised the option to change premium payment term, **Total Premiums Paid** will include premiums paid only from the date of converting to Limited Pay and **Original Policy Term** will be the outstanding policy term on the date of converting to Limited Pay.

² **Unexpired Policy Term** shall be calculated on the earlier of date of surrender and the date till which premiums have been paid.

Smart Exit Benefit:

The policyholder has an option to receive Smart Exit Benefit, equal to Total Premiums Paid** under the policy. No additional premium is payable to avail this option.

This option can be exercised by cancelling the policy subject to the following conditions:

- This option can be exercised in any policy year greater than 25, but not during the last 5 policy years.
- The policy has to be in-force at the time of exercising this option.
- This option shall not be available where:
- Return of Premium option has been selected

** If the policyholder has exercised the option to change premium payment term, Total Premiums Paid will include premiums paid only from the date of converting to Limited Pay.

Yes, If the Policy has been discontinued due to the non-payment of Premium, it may be revived/restored by the Insurer with all the benefits mentioned in the Policy document, with or without rider benefits, if any, upon the receipt of all the Premiums due, interest and other charges/late fee, if any, during the revival period, as per the terms and conditions of the Policy, upon being satisfied as to the continued insurability of the insured/Policyholder on the basis of the information, documents and reports furnished by the Policyholder; in accordance with Board approved Underwriting Policy. The application for the revival should be made within five years from the due date of the first unpaid Premium and before the expiry of the Policy Term. Once the Policy is revived, you are entitled to receive benefits as per the Policy.

The revival interest shall be reviewed half-yearly and it will be reset to: Average Annualized 10-year benchmark G-Sec Yield (over last 6 months & rounded up to the nearest 50 bps) + 2%. The change in revival rate shall be effective from 25th February and 25th August each year. Any change on basis of determination of interest rate for revival will be done only after prior approval of the Authority.
